14 POYNT CORPORATION,
15 Plaintiff,
16 v.
17 INNOWI, INC.,
18 Defendant.

Case No. 5:18-cv-05814 BLF

**DECLARATION OF WILL
MELEHANI IN SUPPORT OF
PLAINTIFF POYNT
CORPORATION'S OPPOSITION TO
DEFENDANT INNOWI, INC.'S
MOTION TO DISMISS**

Date: February 14, 2019
Time: 9:00 a.m.
Courtroom 3, 5th Floor
Judge: Hon. Beth L. Freeman

1 I, WILL MELEHANI, declare and state as follows:

2 1. I am an Associate with the law firm of Orrick, Herrington & Sutcliffe LLP
3 (“Orrick”), counsel of record for Plaintiff Poynt Corporation (“Poynt”) in the above-captioned
4 matter. I am a member in good standing of the Bar of the State of California. I make this
5 Declaration in support of Plaintiff Poynt Corporation’s Opposition to Defendant Innowi, Inc.’s
6 Motion to Dismiss. I have personal knowledge of the facts set forth below, except as otherwise
7 stated, and if called as a witness I could and would testify competently to those facts.

8 2. Attached hereto as **Exhibit 1** is a true and correct copy of the Statement of
9 Information (“Whizz SOI”) of Whizz Systems, Inc. (“Whizz”) filed in the office of the Secretary
10 of State of the State of California on October 11, 2011. The Whizz SOI was certified as true and
11 correct by Munawar Karimjee, CEO, on October 11, 2011. Ex. 1 ¶ 15. As indicated in the Whizz
12 SOI, the corporate address of Whizz is 3240 Scott Boulevard, Santa Clara, California. Ex. 1 ¶¶ 2,
13 3. Additionally, as indicated in the Whizz SOI, Munawar Karimjee and Muhammad Irfan were
14 officers of Whizz. Ex. 1 ¶¶ 5-7.

15 3. Attached hereto as **Exhibit 2** is a true and correct copy of the Statement of
16 Information (“Innowi SOI”) of Innowi, Inc. (“Innowi”) filed in the office of the Secretary of State
17 of the State of California on March 11, 2014. The Innowi SOI was certified as true and correct by
18 Zia Hasnain, CEO, on March 11, 2014. Ex. 2 ¶ 17. As indicated in the Innowi SOI, the corporate
19 address of Innowi is 3240 Scott Boulevard, Santa Clara, California. Ex. 2 ¶¶ 4, 5. Additionally,
20 as indicated in the Innowi SOI, Muhammad Irfan and Munawar Karimjee were directors of
21 Innowi. Ex. 2 ¶ 10 and p. 2 (List of Additional Directors).

22 4. Therefore, as indicated in both SOIs, Whizz and Innowi share the same business
23 address. Further, per both SOIs, Munawar Karimjee and Muhammad Irfan, both officers at
24 Whizz, were directors at Innowi.

25 5. Attached hereto as **Exhibit 3** is a true and correct copy of a web page entitled
26 “Whizz Systems, Inc | EquityNet.”, except the cited portions have been highlighted in green. On
27 November 27, 2018, at my supervision and direction, Ms. Amy Maruska, a paralegal for Orrick,
28 captured this web page from the EquityNet website at URL: <https://www.equitynet.com/c/whizz->

1 systems-inc, and highlighted the cited portions in green. The web browser was set to display the
 2 title, the total number of pages, the URL address, and the date the web page was captured in the
 3 header and footer by Ms. Maruska. As of the date of this Declaration, this web page can still be
 4 accessed at the aforementioned URL.

5 6. It is my understanding and belief, that Internet Archive (“IA”) is a website that
 6 provides a number of services including a service called Wayback Machine. The Internet
 7 Archive Wayback Machine (“IAWM”) “is a service that allows people to visit archived versions
 8 of Web sites. Visitors to the Wayback Machine can type in a URL, select a date range, and then
 9 begin surfing on an archived version of the Web.”
 10 (https://archive.org/about/faqs.php#The_Wayback_Machine). If archived records for a URL are
 11 available, the visitor is provided a list of dates. The visitor can then select a date and begin to surf
 12 an archived version of the Web. IA assigns a URL on its site to the archived files which allows
 13 the visitor to determine the date and time of the Wayback captures by the date code embedded in
 14 IA’s archived URL. Per IA, “This is the list of numbers in the middle [of the URL]; it translates
 15 as yyyymmddhhmmss in GMT. For example, in this url
 16 <http://web.archive.org/web/20000229123340/http://www.yahoo.com/> the date the site was
 17 crawled was Feb 29, 2000 at 12:33 and 40 seconds.”
 18 (https://archive.org/about/faqs.php#The_Wayback_Machine).

19 7. In November 2018, I ran a keyword search for “innowi.com” in the Internet
 20 Archive Wayback Machine website (“IAWM”) located at URL: <https://web.archive.org>. My
 21 keyword search resulted in numerous archived web captures for “innowi.com.” I focused my
 22 review around the September 2015 time period which is when Innowi filed its first patent
 23 application. I located an innowi.com web page captured on August 1, 2015 (“Aug. 2015 Web
 24 Page”) by IAWM. As of the date of this Declaration, the Aug. 2015 Web Page can still be
 25 accessed at URL: <https://web.archive.org/web/20150801130549/http://innowi.com/>.

26 8. Attached as **Exhibit 4** is a true and correct copy of the Aug. 2015 Web Page,
 27 except the cited portions have been highlighted in green. On November 28, 2018, at my
 28 supervision and direction, Ms. Maruska accessed URL:

1 <https://web.archive.org/web/20150801130549/http://innowi.com/>, printed same to PDF and
2 highlighted the cited portions in green. The web browser was set to display the title, the total
3 number of pages, the URL address, and the date the web page was captured in the header and
4 footer by Ms. Maruska.

5 I declare under penalty of perjury under the laws of the State of California that the
6 foregoing is true and correct.

7 Executed this 29th day of November, 2018 in San Francisco, California.

8

Whizz Systems, Inc

Santa Clara, CA 95054, US

Consumer Products

www.whizzsystems.com (<http://www.whizzsystems.com>)

HELLO,
NOT LOOKING FOR FUNDING - LOOKING TO PARTNER. PLEASE READ ON

I would like the opportunity to speak with you about Whizz Systems, Inc.. We aren't looking for funding. We're looking to hook with your portfolio partners and help them if they need Top Shelf design and manufacturing services.

For 15 years, Whizz Systems, Inc. has provided hardware design and manufacturing services to technology companies across 3 continents. We are trying to network and connect with startups in the Angel World. We provide board design, FPGA design, industrial/mechanical design, rapid prototyping and NPI/production ramp at our Santa Clara facility.. We have another facility in Malaysia that get our customers to a volume point where they become interesting to satellite Tier 1 EMS companies (Jabil/Flex/Sanmina etc.). My process team will then seamlessly work with the "next man up" to teach them all of the nuances of building that particular product. This is a very seamless process from concept to products. Extremely diverse customer base in networking, storage, computing, consumer, medical, test & instrumentation etc.

Part of my team consists of a group we funded last year, Innovi, co-located in our building. They have DEEP core competence in RF, LTE, wireless, custom antenna, HDTV etc. Ex-Motorola Mobility & nVidia. Delivered multiple products to mass production, also have China manufacturing ecosystem. Very strong in industrial/mechanical design and "miniaturization", if you will.

The short video in the link provided gives you a pretty good snapshot of Whizz Systems. I have attached a deck here as well. If these services and capabilities are appealing, please reply back for further diligence / meetings. <http://www.whizzsystems.com/aboutus-high-mix-low-volume.html>

Best regards

Regards,

Woody Woodruff

Markets

Point-of-Sale System

POS market has very slow progression and it is still stand with primitive style, bulky terminals with several-piece set that are capable of doing very limited tasks. These dumb terminals limit the growth of POS industry and left it way behind in this really fast-paced technology race and missing out an opportunity to tap on the intelligence of similar technologies in other domains to increase the revenue and profit.

Innowi Inc understands this lag and proven its capabilities of bridging this gap by helping one of its partners to introduce worlds first smart payment device to POS market.

Innowi offers its services to interested parties to design and develop futuristic, highly efficient, and completely user friendly payment solution that is a single piece of equipment combining all the features of legacy multi piece countertop payment system into one sleek device. The device is not only clearing a counter space but also empowering a merchant and customers by offering modern look and feel and state of the art, personalized, interactive experience. The POS device interfaces with the other components in store and in cloud to make complete end to end valuable user experience for customers, shop owner and corporates.

Electrical

Innowi Inc. offers a wide range of electrical engineering product design and development capabilities. Our team of highly skilled electrical engineers and technicians can satisfy your design needs with decades of experience in analog and digital circuit design, field-programmable gate array (FPGA) design, RF/wireless design, and much more. Utilizing state of the art technologies, our staff can respond rapidly and efficiently to bring your product from idea to realization.

Innowi's electrical engineering and circuit design team has worked on a variety of products. Consumer electronics, medical devices, computer peripherals and communications products are just a few of the product categories in which we have extensive analog and digital electrical circuit design experience.

Innowi has an extensive set of tools for electrical circuit design, simulation, and testing, including FPGA design. The combination of talented engineers and state of the art equipment allows Innowi to deliver you a design optimized for functionality and manufacturing (DFX).

The Innovation Center also has extensive capabilities beyond the traditional new product introduction services, from advanced engineering, design for manufacturing and supply chain optimization, prototyping, failure analysis, testing, to production and transfer.

About Us

Innowi was founded on a philosophy of becoming a tool for great minds to take their ideas to next step. Innowi brings all the tools at their disposal to make it easy for them to bring their concepts to realization.

Innowi is founded by skilled, experienced, passionate ex-Motorolans bringing an over 50 years of combined industry experience in all the disciplines of product development lifecycle. Its presence in the heart of a silicon valley, support of Whizzsystems, a leading ODM, skilled and experienced leadership makes Innowi's position unique in the industry. Design experience of Innowi founders in the field of Electrical, Mechanical, Thermal, RF and Software together with the team of talented engineers on-site and off-shore, on-site factory for quick proto and trial releases, off-shore mass production, has made the foundation of the company very strong to face any complex challenges of the industry.
